ICELAND!

Northern Lights, Ice, and Fire

with Women of the Midwest!

October 14-20, 2022

Dear Women of the Midwest,

Join me on a magical journey to a magical island; Iceland!

Just a bit smaller than Kentucky, it's a thrilling destination for nature enthusiasts like me, outdoor lovers and those just seeking the unexpected, set in soul-stirring scenery. It is also the world's most northern capital city with the friendliest people you will ever encounter making this trip even more joyful. And the lights - the Northern Lights - it will blow us away with its colors; pink, green, yellow, blue, violet, orange ...the best time to experience this is in the wintertime, the reason why we have chosen to travel late October.

Our journey goes to an island anchored near the top of the globe, with a raw beauty sculpted by its volcanic nature. Rumbling ice-covered volcanoes, black sandy beaches, gigantic glaciers silently gnawing away at mountains, crystal clear lagoons speckled with glistening icebergs, gurgling hot springs, explosive geysers, fields punctuated with stoic Viking horses and long-haired sheep, thunderous waterfalls adorned with absurdly perfect rainbows, and ever-changing light are wonders only experienced in Iceland!

We will listen to the stories of the Northern Gods and Goddesses, learn about Norse mythology, taste delicious and original local products, take an unforgettable journey into the heart of a glacier, a man-made ice cave, and have the opportunity to swim in the Blue Lagoon. And Icelandic wool is something you will want to take a closer look at. It contains two different types of hair that serve as a natural barrier from wet and cold weather. The outer layer is composed of coarse, long hair, which Icelanders call "tog". The tough and fleecy tog is a water-resistant layer. Consider taking some back home with you, maybe as a unique Christmas gift.

What an adventure, what an awe-inspiring destination! It's a short get-away before the hustle and bustle of the holidays. Come join me, solo or two-by-two. Let's catch the northern lights and explore this gorgeous island.

Sincerely yours,
Sally Dunham
Ambassador

October 14, 2022
Friday

Iceland is a place you must see to believe! Our Iceland adventure begins as we take an overnight flight to Reykjavik. Enjoy in-flight entertainment and meal service as you start your dream vacation.

October 15, 2022
Saturday - Reykjavik

Upon our early arrival at Reykjavik airport, we will meet our English-speaking tour guide, who will follow us during our entire journey. We are off on a short drive to Reykjavik to be introduced to this cute town. We make our way to Hallgrímskirkja, a Lutheran parish church and one of the highest structures in Iceland. The elevator will take us to the top of the church to get the best view of the world's most northern capital. Soak in the colorful houses, blue water and mountains in the distance. Next, we take a stroll at our own pace down the bustling shopping street Laugavegur and a stop for lunch at a local restaurant. We continue our walking tour along the lovely city lake Tjörninn before making our way to the Harpa Concert Hall by the water. We finish our tour by visiting the Sólfarið ("Sun Voyager") sculpture. It is time to check into our hotel, relax and unwind for the remainder of the day. L

October 16, 2022
Sunday - Into the Glacier

After a hearty breakfast, we are off to a

once-in-a-lifetime experience. We start the journey from Reykjavik and head towards the beautiful fjord Hvalfjörður. Hvalfjörður is directly translated into "Whale Fjord" because of the large number of whales in the surrounding water. Our first stop is at Sturlureyki, a farm located in a geothermal area. We also make stops at the hot spring Deildartunguhver. Deildartunguhver churns out 180 liters of boiling water per second (a rate of flow that tops all other European hot springs). Some of the water from the hot spring is used for heating purposes and is piped to nearby villages. We arrive in Husafell and our adventure leading us to the untouched beauty and raw nature of Langjökull, Iceland's second-largest glacier, begins. We will board a modified glacier vehicle, specially made to explore the glacier environment and enjoy the views as we drive on the top of the ice cap. Our specialist guide will teach us all about glaciers, prior to going deep inside the man-made ice tunnels leading to the blue heart of the glacier. This is only one of the many highlights on our journey. Lunch is served at a local restaurant before we head to our beautiful hotel in Grimsborgir. En route, we will make a stop at a farm that utilizes geothermally heated greenhouses in order to grow vegetables. The farm specializes in growing tomatoes - a remarkable feat in Iceland. We will enjoy a short visit along with a taste of their famous Bloody Mary made from their home-grown tomatoes.

After a wonderful day, we arrive at our hotel in time for a good night's rest. B | L | T | D

October 17, 2022
Monday - Golden Circle

After breakfast, we embark on a full-day tour of the Golden Circle, a route that is home to some of Iceland's most wonderful natural attractions. We make our way to visit the UNESCO Listed Þingvellir National Park, the site of a magnificent rift valley where the historical and geological wonder of the American and Eurasian tectonic plates are pulling apart at a rate of a few centimeters per year. It is clearly visible! This place is also the home of the largest natural lake in Iceland. Next, we will see the spectacular Gullfoss Waterfall, before finally viewing the spouting geysers in the geothermally active valley of Haukadalur. An optional 1-hour snowmobile tour on the Langjökull glacier is offered. Lunch is served in Geysir before we enjoy yet another tasting of Iceland's local delicacies; the delicious rye bread, made in the old traditional way, by baking it underground using the natural geothermal heat found in the area. We return to our hotel in time for dinner. Enjoy a spa treatment tonight (optional) or simply relax taking in the stunning views of the northern lights. B | L | T | D

October 18, 2022
Tuesday - Southern Tour

After enjoying breakfast, we will take a tour

of the southern part of Iceland. Our views today will include farmlands, glaciers, volcanoes, and waterfalls. We will pass from the volcano Hekla and the glacier-volcano Eyjafjallajokull which erupted in 2010, causing enormous disruption to air travel and affecting ten million travelers. Reaching the southern coast, we will see the Westman Islands rise from the sea. We will make a stop at the black beach of Reynisfjara and you will witness the spectacular basalt columns at the hillside as well as the characteristic rock pillars - a nesting place for puffins and other seabirds during the summer season. You will have the opportunity to walk the path of the Seljalandsfoss waterfall, passing behind the falling waters. Another impressive waterfall is Skogafoss. You will feel the power being released once the water hits the pool at the bottom in a cloud of spray. Lunch is served at a local restaurant today and dinner at our wonderful hotel. Yet another day of "cameras out"; photography opportunities are exceptional! B | L | D

October 19, 2022
Wednesday - *Thorsmork, Viking Feast*

After breakfast, we head towards Þórsmörk (or Thorsmork), a lush natural paradise situated in between three glaciers in the southern highlands. The valley is named after the Norse Thunder God Thor, and linked with some interesting Norse mythology. Thor, with his famous hammer,

played an important role in Icelanders' beliefs and the influence of the Pagan religion is evident in many location names spread far and wide across the country. An endless number of trails of various lengths stretching all around the valley provides something for everyone. You will be mesmerized by the most extraordinary geological wonders and again witness some of the most dramatic and spectacular volcanic mountain scenery and glacier views, all whilst taking in the fresh air and the almost impossible serenity of this place. A boxed lunch is in our bags today and you are free to take a stroll, walk, or hike as you prefer. Or simply lean back and reflect on your amazing Iceland adventure. Just like almost any other scenic place in Iceland, Þórsmörk has made an appearance on the famous "Game of Thrones". For the young at heart, we offer an optional 4x4 Super Jeep experience. Your driver will take you down rough Highland F-roads and cross several un-bridged and gushing glacier rivers, making Þórsmörk as much of an adventure as possible. In the afternoon we return to Reykjavik to check into our hotel. A special Viking Feast farewell dinner is to be enjoyed, including the special Icelandic shots! B | L (boxed) | D

October 20, 2022
Thursday - *Blue Lagoon - Return Home*

Iceland without a visit to the famous Blue Lagoon is impossible! Our bags are

packed and safely kept onboard our motorcoach as we head to the Blue Lagoon this morning. Located on an old lava field, it is considered one of the 25 Wonders of the World. Being a natural geothermal spa, the warm sea waters are rich in minerals and silica which gives the water its mesmerizing bright blue appearance. Here, you can enjoy a swim and a free mud mask from the "Mud Bar", while you are able to order drinks on your electronic entrance armband once in the water. This is the most awesome way to conclude our journey!

Transfer to Reykjavik airport in plenty of time to check-in for our flight and clear security. You may wish to do some last-minute shopping at the duty-free stores before boarding and flying west across the Atlantic Ocean back to the United States. B

Itinerary is subject to change.
